

## **Safety Data Sheet**

#### **SECTION 1: IDENTIFICATION**

#### **Product Identifier**

Product Name: Cypress/Sunset Gold Finished Blend

Synonyms: Oxide Blend

### **Intended Use of the Product**

Dry blend of iron oxide used for aqueous dispersions.

### Name, Address, and Telephone of the Responsible Party

### **Company**

Florida Coastal Colors 550 Elm Street Helena, AL 35080 USA

Ph: 205-664-5041 Fx: 205-664-5043

#### Manufacturer

Florida Coastal Colors 550 Elm Street Helena, AL 35080

USA

Ph: 205-664-5041 Fx: 205-664-5043

### **Emergency Telephone Number**

Emergency Number: ChemTel 1-800-255-3924

#### **SECTION 2: HAZARDOUS IDENTIFICATION**

#### Classification of the Substance or Mixture

Classification (GHS-US)

Not Classified

### **Label Elements**

**GHS-US** Labeling

Manufacturers Labels

#### **Potential Environmental Effects:**

No significant environmental hazards are associated with release to the environment.

However, the color can disperse, so as a matter of good practice, do not spill into any waterway or sewer.

Recommended usage of this product is outdoors or in a well- ventilated area.

### **Unknown Acute Toxicity (GHS-US)**

No data available

#### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Component	CAS Number	OSHA PEL	ACGIH TLV	Weight Percent
Iron Oxide Red*	1309-37-1	10 mg/m3 (iron oxide fume)	5mg/m3 (Iron Oxide dust & fume)	1-99%
Iron Oxide Yellow*	51274-00-1	10 mg/m3 (iron oxide fume)	5mg/m3 (Iron Oxide dust & fume)	1-99%
Dispersant	Trade Secret	N/A	N/A	1-3%

<sup>\*</sup> Exposure levels for iron oxide are not applicable when product is in liquid form.

The composition of this material is a trade secret. Contains no other components or impurities, which will influence the classification with regard to human and environmental risk assessment.

#### **SECTION 4. FIRST AID MEASURES**

**Emergency Overview**: May cause respiratory tract, eye, and skin irritation

*Eyes*: Short-term harmful effects are not expected. However, irritation may develop causing itching and redness.

*Skin*: Short-term harmful effects are not expected. However, mild skin irritation may develop causing itching and redness.

*Inhalation*: Short-term harmful effects are not expected. However, exposure to vapors or dust may cause coughing or wheezing when inhaled.

*Ingestion*: Not an intended route of exposure. Short-term harmful effects are not expected. However, may upset the gastrointestinal tract and cause diarrhea

# Section 5. Fire Fighting Measures

Nonflammable aqueous pigment dispersion

Extinguishing Media: Water Spray to keep exposed containers cool

CO<sub>2</sub> or foam.

Special Fire Fighting Procedures: N/A
Unusual Fire or Explosion Protection: N/A

General Hazard: In the unlikely event that all water is evaporated, a

dust cloud may form

Flammability Data:

 $\begin{array}{ll} Flash \ Point & Noncombustible \\ Flammability \ Limits & N/A \end{array}$ 

<sup>\*\*\*</sup>No reportable quantities of toxic chemical(s) subject to the reporting requirements of Section 313 of SARA Title III and of 40 CFR 372 are present\*\*\*

### **Section 6. Accidental Release Measures**

Spills and Leaks: Non Hazardous. Contain the spill or leak to prevent discharges to surface

storm sewers. This material is a concentrated dye/pigment. This product is not environmentally hazardous. It will however cause discoloration of soil and storm

water. Avoid soil and water contamination.

**Clean-Up** Collect spilled material without causing a dust cloud by using an inert absorbent

such as sand or vermiculite.

**Procedures:** Placed in properly labeled and closed container. Dispose of collected material

according to federal, state, and local regulations.

# Section 7. Handling and Storage

**Handling:** Avoid breathing fumes. General mechanical ventilation can be expected to

effectively remove and prevent build up of any vapor or dust generated from handling this product in a closed environment. Do not freeze. Protect eyes to

prevent contact. Avoid prolong or repeated exposure to skin.

**Storage:** Keep container dry. Keep containers sealed until ready for use.

# **Section 8. Exposure Control/Personal Protection**

**Engineering controls**: General mechanical ventilation can be expected to effectively remove and prevent build up of any vapor or dust generated from handling this product in a closed environment

### **Personal Protection:**

**Eyes:** Wear safety glasses with side shields. Wear additional eye protection such as chemical goggles or face shield if splashing or spraying hazard exists. Have an eye wash station available.

**Body:** To prevent skin contact use coveralls, apron, boots, or lab coat.

*Hands:* Avoid skin contact by using chemically resistant gloves.

**Respiratory:** No respiratory protection required under normal conditions of use. Use local exhaust to control excessive vapors/dust. If excessive vapors or mists are persist use appropriate NIOSH/MSHA approved organic vapor/dust respirator.

*Other:* Open wounds or skin surface disruptions should be covered with a chemical resistant patch to minimize absorption risks. Clean clothing should be worn daily to avoid possible long-term build up of the product leading to chronic overexposure.

Exposure Limits: Iron Oxide dust: ACGIH TLV 5 mg/m<sup>3</sup> TWA

 $10 \text{ mg/m}^3$  TWA

# Section 9. Physical and Chemical Properties

Appearance: Physical State Fine Powder

Form Powder Color Gold

Odor None pH 4-10

Boiling Point 100° C (212°F) Water Flash Point Noncombustible Lower Explosion Limit Not Applicable Upper Explosion Limit Not Applicable

Melting/Freeing Point N/A

Solubility in Water Dispersible

Evaporation Rate (Butyl Acetate =1) <1
Reacts if Exposed to Light: No

Air No

Specific Gravity (Water = 1) Approx. 3.1
Bulk Density (lbs/gal) Approx. 25 lbs

NOTE: The physical data presented above are typical values not specifications

# Section 10. Stability and Reactivity

Chemical Stability: This material is chemically stable under normal and storage and handling

conditions.

**Corrosive:** No

**Incompatibility:** Long term storage in direct contact with reactive metal such as aluminum,

zinc, copper, nickel, magnesium, etc

(Materials to Avoid) Other materials to avoid include strong oxidizing agents

**Hazardous** When involved in a fire, burning may evolve noxious fumes which may include carbon monoxide, carbon dioxide, nitrous oxides, acetic acid, or

other toxic compounds depending on the chemical composition and

combustion conditions.

**Hazardous polymerization** Will not occur **Hazardous Decomposition Product:** None know

## **Section 11. Toxicological Information**

As with all materials for which test data are limited or do not exist, caution must be exercised Through the prudent use of protective equipment and handling procedures to minimize exposure

Chronic Toxicity: None known
Carcinogenic Effects: None known
Mutagenic Effects: None known
Teratogenic Effects: None known

**Developmental** 

**Toxicity:** None known

**Acute Effects on** May cause skin, eye, and respiratory irritation.

**Humans:** 

**Sensitization:** Repeated or prolonged exposure to the substance at concentration

above the exposure limits may cause respiratory tract and lung

sensitization.

**Carcinogenic Effects:** This material is not known to cause cancer in animals or humans.

**Existing Medical** May provoke asthmatic response in persons with **Conditions Aggravated** asthma who are sensitive to airway irritants

By Exposure:

# **Section 12. Ecological Information**

**Ecotoxicity:** No data or testing is available for this product, however the material is not expected to have adverse effects. Contents are nonhazardous but will cause discoloration to the soil and water that is exposed.

**Environmental Fate:** No data available

US: Not a hazardous waste under U.S. RCRA, 40 CFR 261

# **Section 13. Disposal Considerations**

For waste disposal purposes, and aqueous liquid with a pH between 2.1 and 12.4 is NOT defined or designated as hazardous by current provisions of the Federal (EPA) Resource Conservation and Recovery Act (RCRA, 40 CFR 261)

**EPA Waste Number:** Non-hazardous waste

**Treatment:** Dispose of according to all federal, state, local, and

provincial environmental regulations.

### **Section 14. Transport Information**

D.O.T. Not regulated as dangerous goodsIMO/IMDG Not regulated as dangerous goodsIATA Classification: Not regulated as dangerous goods

NMFTA Classification # 149980; Sub 6; Class 55

## Section 15. Regulatory Information

TSCA Toxic Substances Control Act

OSHA This document has been prepared in accordance with MSDS

RCRA This mixture and or its contents are not a hazardous waste if disposal is

required

CERLA Components of this mixture are not CERCLA hazardous substances

HAPS This mixture does not contain any Hazardous Air Pollutants
ODC This mixture does not contain any Ozone Depleting Compounds
TOX This mixture does not contain any organic halogens (EPA 9020)

CWA (40 CFR 116) This mixture is not on a Clean Water Act list

CAA of 1990 This mixture is not made with nor does it contain any Class 1 or Class 2

ozone depleting substances as defined under the 1990 amendments to the

act

SARA (302) This mixture does not contain any constituents that are identified as

extremely hazardous

SARA (311/312) Reportable Ingredients: None

SARA (313) No reportable quantities of toxic chemical(s) subject to the reporting

requirements of Section 313 of SARA Title III and of 40 CFR 372 are

present

**Regulatory Listings** 

United States (TSCA): Listed
